Descripción del producto

LED lamp with warm white light. With PL G24d-3 bulb for downlight. Recommended for home or commercial applications. It is highly energy-saving, consuming 7 times less than other bulbs as it is equivalent to a 26 W fluorescent bulb. It stands out for its maximum light output, it is a white luminaire, powerful and uniform light. It is ideal for switching to LEDs, changing your bulbs in your downlights that still consume halogen. If you want to make sure that the lighting is adequate, you only need to calculate about 4W per square metre. Power factor >0.5, beam angle 130°, power supply 90-230 V~50 Hz. Its luminous flux is 810 Lumens and its colour temperature 3200K. Directional base with 350° of rotation. It is compatible with inductive ballasts (magnetic).
