- Potencia: 250 W
- Tipo de casquillo: E27

## Descripción del producto

Lamp with infrared light. Luminaire recommended for greenhouses or incubators for its ability to maintain the infrared light, with a voltage of 230V. It preserves hot food in display cabinets, dries industrial paint and can even be used in therapeutic treatments with prior recommendation thanks to its 250 W power. Its body is white and the dome is red. It uses the standard E27 socket type. It measures 125 x 180 mm and has a diameter of 12.5 mm.
