Descripción del producto

LED flashing beacon, NR65 XA1 approved. Emits amber flashing light with 3 different flashing programmes. Ideal for installation in places such as agricultural trailers, large transport vehicles and dangerous goods, cranes, care vehicles, rubbish trucks, repair vehicles. They are 8,42 cm long, 2,82 cm high and 1,9 cm wide. They can be installed on the surface by means of 2 screws, covered with the cover plate. There are 7.2 cm between the fixing holes and each hole has a diameter of 3.8 cm. It has an IP68 water and dust protection rating, an operating temperature ranging from -40°C to 55°C. It includes 3 cables, the yellow one is the synchronisation cable that we must join so that the lights are synchronised. They are valid for 12V to 36V installations, at 12V they have a consumption of 0.3A and at 24V 0.15A with a power consumption of 4W.
