

BATTERY AND BATTERY TESTER

Prendeluz S.L.

Precio: **9,45€**

For any 1.5 and 9 volt batteries, including button type batteries.

Otras características

Descripción del producto

Easy to use battery tester with colour-coded readout. The needle on the display indicates green (good), low (yellow) and replace or recharge (red). As the name suggests, it is ideal for testing the condition of batteries. It is activated by the power of the batteries to be tested. Another great feature is that it allows you to see the battery capacity quickly. It is also easy to carry around as it is small in size and compact. If you use batteries frequently, this tester is ideal for you.
