Descripción del producto

Black table lamp with hemp rope that gives it a very special touch. This type of lamp can be combined with more rustic styles, or in places where wood and brown colours predominate. It adapts very well depending on the decoration and the "look" you want to give it. It is articulated both at the top of the lampshade and at the bottom, so you can direct the light wherever you want. It is advisable to use filament LED bulbs to preserve the aesthetics. Combine them as you like and you are sure that they will shine very well in your spaces. It uses the E27 socket type, measures 57 x 21.5 x 33 centimetres and uses 230 V power supply. You can find more variety of lamps ideal for table in this category of our website.?
