Descripción del producto

The decorative wall light E27 is composed of a base and lampshade made of black aluminium. Its functional design, with the inside of the lampshade in white, favours efficient lighting. The gold-coloured metal bar that connects the two pieces allows the light to be directed to the desired location with freedom of movement. The decorative cable in black gives it an ideal touch for interiors such as bedrooms, living rooms, offices, etc. The maximum power is 25 W, the voltage is 220 V, the dimensions of the base on the wall are 100 mm, that of the wall lamp 136 mm. The dimensions 166 mm long x 168 mm wide. It has IP20 protection and CE certificate.
