Descripción del producto

Alarm for doors and windows. Protect yourself against burglary! This alarm will secure your home by activating an annoying sound if your windows or doors are opened in an unauthorised manner, protecting you from undesirables and burglars! Easy to install, as it does not require wires for connection, it has a loud sound and a switch. In white colour, its dimensions are 62,7 x 31 x 22,3 mm. Made of resistant plastic, its sound level (30 cm) is 105 dB. It is powered by batteries, 3 batteries type LR44 1,5V (included). As it is wireless and not connected to the mains, it gives you security against blackouts or voltage drops in the network.
