Descripción del producto

Ceiling lamp with E27 lamp holder with microwave motion detector. This round white ceiling lamp has dimensions of 300 x 110 mm. Its maximum power is 60W (maximum load of 300W additional with switch) and has an input voltage of 220-240V 50Hz. As it has an E-27 lampholder, it is practically compatible with any bulb, simply by screwing it in. The detection angle of the sensor is 360° up to a distance of 8 metres, with a speed of 0.6 to 1.5 m/s. It has CW microwave radar technology 5.8 GHz (ISM band). The switch-on time is adjustable from 10 seconds to 12 minutes, the brightness is also adjustable from 3 to 2000 lux. It is recommended for installation between 2 and 4 metres, it has a 120° angle of light. It is ideal for communities, car parks, hotels, hospitals or schools.
