Descripción del producto

LED ceiling light adjustable in tone and intensity with remote control, being able to show from a neutral, cold and warm white light (3000k-4000k-600k). With the remote control it is possible to control up to 2 luminaires at the same time. The power factor of its 256 LEDs is > 0.9 $R_a > 80$. Its dimensions are 550 mm in diameter and 60mm high. White in colour, its angle of luminosity is 115 degrees, providing precise illumination. It is ideal for indoor installation (ip20 protection) and its use is recommended between -20 and 40 degrees. It has 4500 Lm and a voltage of 220 - 240 V. The lifetime of the LED is 25,000 hours, so you can use it for a long time. It is perfect for hotels, restaurants or commercial premises. The control is very easy to use, you only have to make sure that the channel specified on it matches the channel of the luminaire to be used (both can be adjusted).
