Descripción del producto

Universal European adapter. Adapter from European plug type C to American plug type NEMA 1-15. In white colour, this adapter consists of a male plug outlet with two flat pins, with one pin slightly wider than the other. It is polarised, has a current rating of 10A, a power supply of 15 V and a power supply of up to 250 V. You can connect your electronic devices with a c-output without any problems! The A adapter also has a Japanese variant. Note that the American plug does not fit into the Japanese socket, but the Japanese plug does fit into the American socket. The Japanese plug fits into the American socket.
