## Descripción del producto

LED lamp to decorate the surface of the pool. It has SMD2835 LED technology with 333 LEDs. Waterproof due to IP68 protection rating and CE & RoHS certificates. Not suitable for salt water and recommended for use between -20° and 40°. Designed for installation in spotlights using PAR56 lamps such as 500667 and 500668 (references in shop). Made of white PC material, it has a cable length of 2 metres (the connection is made through a 220 Vac to 12 or 24 V transformer). It provides a cool light tone due to its 2200 Lm and 6500 K. Its useful life is 30000 hours and its dimensions are 177 x 13 mm. Voltage of 12 V and 22 to 24 W. It contains instruction book and is compatible with the 500666 reference control.
