Descripción del producto

Five-metre yellow fibre optic cable of premium quality and 100% verified. It is ideal for ethernet connections so it is compatible with fibre optics of telephone companies such as Orange, Vodafone, Telefonica (Movistar) and more. Designed in different sizes for distribution according to its use. It has good quality with low insertion loss (Insertion Loss, ≤ 0.2 dB) and high return loss (Return Loss, ≥ 60 dB) to increase Internet speed.
