Descripción del producto

Detector with infrared technology. Ideal for installation in passageways such as entrances and exits, porches, gardens, garages, etc. With an adjustable head that allows a more precise detection area with an angle of 180°. Adjustable in operating times, detection metres (from 6 to 12 metres) and lux (from 3 to 2000 lux). Recommended installation height from 0.5 to 3.5 m, easy installation thanks to its 3 conductor wires. It has an IP65 protection rating, so it is recommended for outdoor use. Its power supply is 220-240 V~50 Hz and its maximum power is 1200W (for incandescent lights) and 300W (for low consumption and LED). Its colour is white and its dimensions are 80 x 50 x 120 mm.
