

KID MAST AMPLIFIER AM-915 + AL-100 POWER SUPPLY (FOR SINGLE-FAMILY HOUSES)

Precio: **56,95€**

- Kit consisting of an AM-915 mast amplifier and AL-100 power supply
- Number of outputs and inputs: 2
- Frequency range 160 - 260 MHz
- Gain 28 dB, gain regulation 20 dB

Otras características

- Alimentación: 24 V
- Ganancia: 28 dB
- Ip: 53
- Rango de frecuencia: 160 - 260 MHz
- Rechazo entre entradas: > 30
- Temperatura de funcionamiento: -20 + 65 °C

Descripción del producto

The kit consists of an AM-915 mast amplifier and an AL-100 power supply. It is protected against overloads and short circuits. The amplifier has an operation indicator, gain regulator, power switch, inputs and outputs and power output. The amplifier can be powered from any of its outputs. The amplifier is ideal for feeding the TV signal, antenna signal, and is used when the signal is weak. The amplifier has 2 outputs and inputs. The frequency range is 160 - 260 MHz, gain 28 dB, gain regulation 20 dB, power supply 24 V 50 mA.
