Descripción del producto

Flexible LED strip kit with switch and blue colour. Our five metre LED strip contains 30 LED lights per metre, is self-adhesive and waterproof (IP65 protection) so it is perfect for illuminating shelves, display cabinets, walls, vehicles, etc. It is silicone coated to prevent wear and tear and darkening over time. It includes 230VAC / 24VDC power supply. Its consumption is 36W and input voltage is 12VDC. It has a useful life of 20000 hours, dimensions are 10 mm x 1.2 mm, with a beam of 120° and adjustable every 50mm.
