## Descripción del producto

Black lamp holder with E27 socket. Ideal for installation on the ceiling or walls of the house. The silicone material allows it to be maintained over time. It is a shade that stands out because of the material and gives sharpness to the product. It works very well for spaces where you want to show an original and striking design. It is available in a variety of colours as required: blue, green, white, black or violet. This type of pendant lamp can be combined with an eye-catching LED bulb. Play with the different styles you can create in your home or bedroom. Cable length 1 metre.
