Descripción del producto

LED dichroic lamp, with GU10 socket and twilight sensor. With a beam angle of 100° and a colour temperature of 3000 K, it illuminates with a warm white light. It has a luminous flux of 330 Lm and a life of 25,000 hours. It has a power of 5W and measures 50 mm and 57 mm. Its twilight sensor makes it switch on automatically when it detects darkness, its luminous sensitivity is between 40 lux to switch off. Perfect for use in exterior shop windows. You won't have to worry about turning on the lights when it gets dark! Its LED makes it very economical, with an A+ label. Illumination: >12,500, CRI: >80, PF: >0.5.
