- Lúmenes: 150 Lm
- Material: ABS - PC
- Medidas: 260 x 95 x 55 mm
- Temperatura: 4000 K

## Descripción del producto

LED emergency lamp. For recessed installation, very easy to install. This luminaire has two modes of use, with Permanent / Non Permanent light, configurable with a switch. The permanent luminaire: It is lit both in the presence of power supply or in the absence of power supply. The non-permanent luminaire: The light only comes on in the absence of the power supply (only when a power cut occurs). It incorporates a built-in verification test button, this LED allows the room to be evacuated, providing light when there is a power cut (autonomy of 18 to 24 hours). It includes a Ni-MH 3.6V 1000mAh battery that provides up to three hours of autonomy. Perfect lamp for signalling exits, doors, passageways, etc. It has a colour temperature of 4000 K, so it emits a neutral white light. Its luminous flux is 150 Lm, and its dimensions are 260 mm long, 95 mm high and 55 mm wide. Its integrated LEDs have a useful life of 25,000 hours. It has IP20 protection and is manufactured in white, ABS and PC materials. CE & RoHS certified.
