Descripción del producto

Rectangular full-spectrum lamp for plant and flower growth, indoor use. With dark light systems (UV&IR) that play an important role in the growth and development of plants. With a power of 50W and a voltage between 65 - 285 V it is perfect to give that growth boost to your plants thanks to its 169 LEDs in different colours. Dimensions 28 x 28 x 3 mm with a cable length of 1.5 metres. Material ABS + Aluminium with IP20 protection. Its frequency is 50/60 Hz and wave 410-730 nm. It is recommended not to use it near heat sources (up to 60°C) and to keep it away from corrosive gases. It includes power cable and hooks for easy installation. Maximum recommended distances for use with respect to the plant: 0.9 to 1.5 metres in the germination phase, 0.46 to 0.90 metres in the vegetative phase and 0.3 to 0.46 metres in the flowering phase.
