Descripción del producto

LED lamp to decorate the surface of the pool. Its different RGB colours and intensities are adjustable by remote control reference 500666 (not included). It has SMD2835 LED technology, it is completely waterproof due to its IP68 protection rating and CE & RoHS certificates. It is not suitable for salt water and is recommended for use only under water at 700 mm and in temperatures from -20° to 40°. With a lifetime of 30,000 hours. It is white in colour and made of PC and fibreglass, it contains 333 LEDs. Its luminous flux is 900 lumens, with a luminous angle of 120°. Its dimensions are 260 mm x 40 mm and its cable length is 2 metres (connection is made through a 220 Vac to 12 or 24 V power transformer). 12 V voltage and 22 to 24 W standard input. Suitable for lamps using PAR53 such as 500667 and 500668 (references in shop) Includes instructions for assembly and use.
