- Ip: 44
- Material: Plástico
- Medidas: 95 x 95 x 338 mm
- Pilas: 1 x 100 mAh AAA NiMh
- Potencia: 0.06 W
- Temperatura: 6500 K
- Unidades: 12

Descripción del producto

Pack consisting of 12 solar LED lanterns, make your garden cosy and be environmentally sustainable! These lanterns made of high quality black plastic are IP44 protected. Resistant to water, mud, snow and dust, they need no installation. Just stick them on a soft surface and turn on the switch inside to make them work. With its night sensor, the LED lights will turn on automatically when they detect low light. Thanks to the solar panel on the top of the lantern, during the day it will charge the built-in battery (1* 100 mAh AAA NiMh battery) and at night its LED will illuminate continuously for 8 to 12 hours. The LED illuminates at a light angle of 80°, with a colour temperature of 6500K. So it emits a cool white light. It has CE & RoHS certification and CRI >60Ra. It measures 9.5 cm wide and 33.8 cm high (adjustable).
