

LED SPOTLIGHT 200W 6500K IP65, INCLUDES MONOCRYSTALLINE SOLAR PANEL

Precio: **75,45€**

200 W led spotlight with high performance solar panel, wireless and easy to install.

Otras características

- Ip: 65
- Potencia: 200 W
- Temperatura: 6500 K

Descripción del producto

LED spotlight with high efficiency monocrystalline solar panel transforming up to 23% of solar energy into electricity, working for 10 to 12 consecutive hours. Being monocrystalline it has good performance and charges in low light. It can even charge on snowy and rainy days. It is also environmentally friendly and saves on electricity bills. It has 25 lights with integrated LED technology reaching a temperature of 6500 K providing cool white light. You don't even need to worry about switching it on and off as it has automatic operation through the sensor. You can control it with the remote control if necessary. It is IP65 rated, so it is protected against dust, wind and water as it is hermetically sealed. It is designed for outdoor use and can withstand rain or inclement weather. It is characterised by being IK07 with a glass mask to protect it from heat and pressure, explosion proof.
