- Color: Cobre
- Dimensiones: 1'2m
- Potencia: 100 W
- Tipo de casquillo: E27
- Tipo de interruptor: Rosca

## Descripción del producto

Bronze pendant lamp. This luminaire is composed of a round metal base (which is installed on the ceiling) from which a braided brown textile cable comes out, finished with a rosette. The cap in antique copper colour (like the base) is used for E27 socket bulbs and is therefore compatible with most standard luminaires. The maximum input voltage is up to 250 Volts, it has an output of 100 W and 4 A of intensity. Ideal for spaces where you want to give a rustic or antique touch, we suggest you use several of them to create a very modern optical effect. The length of the lamp is 1.20 metres.
