Descripción del producto

LED lamp to decorate the surface of the pool providing a cool white light tone for its 6500k. It uses SMD2835 LED technology, is completely waterproof due to its IP68 protection rating and CE & RoHS certificates. It is not suitable for salt water and is recommended for use only under water at 700 mm and in temperatures from -20° to 40°. With a lifetime of 30,000 hours. It is white and made of PC and fibreglass, it contains 333 leds. Its luminous flux is 2200 lumens, with a luminous angle of 120°. Its dimensions are 260 mm x 40 mm and its cable length is 2 metres. Voltage of 12 V and 22 to 24 W standard input (the connection is made through a 220 Vac power transformer to 12 or 24 V). Suitable for lamps using PAR53 as 500667 and 500668 (references in shop) and remote control reference 500666.
