Descripción del producto

Flexo Led USB. This wall lamp with black flexo has no cable, it is connected directly to the current (requires electrical installation). Thanks to its USB you will be able to recharge your electrical devices such as smartphone, tablet, headphones or whatever you need without the need of another plug! Perfect to place in the bedroom next to your bedside table, in a study area, on your desk... As its 41 cm flexo is flexible. Its integrated LED emits a warm light thanks to its 3000 K temperature and its luminous intensity of 410 Lm. It is a long-lasting light, as the LED has a useful life of more than 20,000 hours. It is also low consumption, with a power of 5W. The base measures 7cm wide x 14 cm high.
