Descripción del producto

Adapter 2 in 1 lightning connector to HDMI port + 1 extra lightning port. It is easy to carry because of its small size, it fits practically in your pocket. The HDMI port is ideal for projections, supports up to 4K resolution (3840x2160@30Hz). You can also use the hdmi to generate mirroring mode. This adapter has a lightning input as well so you can mirror content from your iphone or ipad to TVs or monitors. Plug and play, simply plug it in and allow "trust" to the computer and you can make use of the device without the need to install software or applications. The lightning cable is compatible with all apple family with this input. It is also compatible with Youtube, Hulu plus and more platforms. This adapter is lightweight so it is easy to carry.
