Descripción del producto

Metal pendant lamp, tesla model. This pendant lamp made in grey colour, is composed of a round base that goes on the ceiling, a cable and its E27 socket lamp holder. So it can be combined with a number of standard bulbs, it has a power of 60W. Its total length is 1m and its total diameter is 10cm. It is perfect either for use with one vintage bulb only, or to make a "cascade" of multiple pendant lamp holders at different heights. With IP20 protection, it is recommended for indoor use.
