

MICROWAVE SURFACE SENSOR 15 M

Prendeluz S.L.

Precio: **19,45€**
Input voltage 220-240 V~50 Hz

Otras características

- Alcance: 9 metros
- Alimentación: 220 - 240 V
- Color: Blanco
- Empotrable: Sí
- Ip: 20
- Lúmenes: 2000 Lm
- Potencia: 200 W

Descripción del producto

Flush-mounted motion detector switch. Infrared motion sensor, with an angle of 160° detects at a distance of 9 metres. In white colour, power of 200 W - 500 W and a voltage of 220-240 V~50 Hz. Perfect for controlling office entrances, corridors, garages, meeting rooms, etc. It has a switch with ON-OFF-PIR position and is compatible with wall boxes. Adjustable in time (adjustable from 10 seconds to 7 minutes) and ambient light (adjustable from 3 to 2000 lux). It can operate with 2 or 3 wires, with 2 wires: 5-200 W and with 3 wires: 200 W. Thanks to its infrared detection technology, it has a range of 9 m (up to 9 m).
