Descripción del producto

Aries mini outdoor antenna. Compact outdoor size, solid aluminium structure, adjustable mast mount (between 32° and 55° degrees). High performance, allowing a gain of 15 dB to 18 dB. High quality, made of aluminium alloy and galvanised anti-corrosion, it is resistant to rain and weather. Easy and simple installation thanks to its Clic - Clack system. Adapted to DTT, UHF band, in a frequency range from 470 to 698 MHz, between 21 and 48 channels minimum. Impedance 75 Ω.
