Descripción del producto

Pack of 10 units of 12 x 12 mm mini trunking. 1 metre long strips. Its main function is to organize and protect the cables that may be in sight in spaces such as the boot or the corner of the room. For its installation you have to follow 5 simple steps starting with the outline of the cut you want to achieve. Use the appropriate saw for this process, remove and stick the sticker on a clean and dry surface. Insert the cables and finally close the cover.
