Descripción del producto

Pack of 10 units of 8 x 12 mm mini trunkings. 1 metre long strips. Their main function is to organise and protect the cables that may be in sight in spaces such as the boot or the corner of the room. For its installation you have to follow 5 simple steps starting with the outline of the cut you want to achieve. Use the appropriate saw for this process, remove and stick the sticker on a clean and dry surface. The cables are inserted and finally the cover is closed.
