Descripción del producto

LED dichroic lamp, pack of 4 bulbs with GU10 socket. They illuminate at a beam angle of 120° and have a colour temperature of 6400K. They give off a cold white light, their luminous power is 520 Lm. They have a useful life of 20,000 hours, and thanks to their LED they allow you to save up to 80% compared to halogen bulbs. In white colour, their individual measurements are: length 49 mm and diameter of 49 mm. Easy to install, the power supply is 230 Volts, and they have an individual power of 6W. Ideal for living rooms or shops, their light helps to create an effect of spaciousness. Available in different intensities, packs and individually.
