Descripción del producto

Pack of 5 LED night lights. Shaped like a slat or torch, these white luminaires are super useful. They have 7 colours of automatic variable light and their LED light dimly illuminates the room, illuminating without stumbling but without keeping you awake. Ideal for children's rooms or corridors! Its light sensor allows it to turn on automatically at nightfall, switching off during the day. Illuminating with a brightness of 30 lumens and a beam angle of 120 degrees. They are used by connecting them directly to the mains, to a 230V power supply. They have an energy consumption of 0.5W per 1000 hours, so their low consumption gives them the A+ certificate. In addition, its LED has a useful life of 12500 hours and CE, RoHS certification, so it is recommended for indoor use at a temperature of between - 10 ?? 40 ?. Its measurements are 60 mm wide, 55 mm long and 123 mm high.
