## Descripción del producto

Double porcelain frame, made to combine with other electrical elements. Recessed, it can be installed vertically or horizontally. This elongated frame is made in white porcelain, the space for the electrical mechanisms is round. It is made of porcelain resistant to dust and humidity. Pleasing to the eye, it is perfect for places with vintage decoration, or for places of difficult access, because the porcelain avoids the damages made by animals and it is very easy to clean. Measures 100 mm in diameter x 175 mm in length and 14 mm in width.
