## Descripción del producto

Work spotlight with special clamping device with clips for easy mounting by attaching to work surfaces, pipes, panels, etc. This type of spotlight is recommended for electrical panels, workbenches, assembly work and similar. It has a light and robust plastic housing with a strong clip. The ball bearing makes it easy to align the light to the work, with adjustable tilt angle and ball joint for almost 360 degrees alignment in almost all directions. Includes powerback function with USB input for charging mobile devices. Uses 3.7V/2.5Ah lithium-ion battery with charge indicator. Lasts up to 12 hours with a charging time of 3 hours. Achieves a temperature of 6350 K and 950 lumens. Measures (H x L x W): 18 x 9 x 9 x 8.5 cm. It has IP65 protection, ideal for protection from dust and splashing water. Make the most of the LED work light in any of your activities.??
