- Material: Plástico
- Numero de tomas: 1
- Potencia: 3680 W

## Descripción del producto

Socket base with Schuko type switch. Base composed of a double frame, with female socket on the left side and individual switch on the right side, with a maximum power of 3680 W and intensity of 16 A for the base. The power rating is 2500 W and 10 A for the switch. The input voltage is 250 V, the mounting is simple, surface mounted. Its dimensions are 120 x 80 x 50 mm, with a pin diameter of 4.8 mm. Grey and black in colour, it is very resistant. It has an IP54 protection rating, with protective plastic on both sides. So it is ideal for outdoors or places with a lot of dust and humidity.
