- Material: PVC-PE-Cobre

Descripción del producto

Shielded RJ-45 data transmission cable. This cable is ideal for connecting computer networks, or your computer to the internet. High speed, has a category 6, its exterior is 10 meters in light grey PVC, PE dielectric material, the inner conduction is copper, section 24 AWG (7 X 0'2 mm). With a number of 4 pairs of twisted conductors your internet connection will improve in speed and efficiency. It also has a protective flange and a diameter of 6.2 mm, which makes it more durable and secure.
