- Longitud: 15m
- Longitud del cable: 15 metros
- Material: Policarbonato
- Numero de tomas: 4
- Tipo de interruptor: General
- Toma de tierra: Si

Descripción del producto

Extendable with thermal protection, shockproof. Its white drum has an ergonomic handle to facilitate its displacement, made of a resistant anti-shock material. It has 4 female schuko outlets in the central area, black in colour. And a T.T., the plug has a cable with a length of 15 metres. It also has thermal protection, which means that when the device overheats it interrupts the power supply. The red button also does the same function when pressed, depriving all plugged-in appliances of power. So it is very safe, made of polycarbonate. It has an IP protection rating, which makes it perfect for outdoor use. Practical, discreet and small in size. It measures 28.5 cm high, 22.8 cm long and 12.5 cm wide. It has a black handle to make it very convenient and quick to collect the cable, 230V power supply.
