Descripción del producto

Flexible wall lamp, silver flexo type. This wall lamp consists of a base screwed to the wall, on it is the white switch. From it comes out the flexible nexus that ends in the cap of the same, which has a diameter of 63 mm. The whole structure is made in silver colour, in top quality materials such as aluminium. It measures 75 mm x 280 mm. This KAWAR model luminaire has a power of 40W, and thanks to its E-27 bulb holder, it is compatible with standard bulbs. Ideal for bedrooms, as its flexibility and handling make it perfect for those night-time readings.
