Descripción del producto

Standard smart lamp pack, consisting of 4 E27 RGB-DIM smart LED bulbs. These smart lights are controlled by the SMART LIFE app on your device. Thanks to the wifi and the app you can change the colour and intensity. You will have 16 million colours to choose from! With 9W power, 810 Lumens and 220 - 240 Volts, give a fun touch to your rooms! Change the intensity and temperature of the light according to the moment from 1% to 100%, depending on your needs, raise and lower the colour temperature from 3000 to 6500 K. As they have a standard socket type, they are compatible with most lamp holders and luminaires. Go ahead and try them in a multitude of places and decorate in a smart way! They have a minimum life of 25000 hours. These luminaires work with any WiFi router, keep them connected to your home's 2.4Ghz wifi network (5Ghz not compatible with mains) so you can always use them. You can control them remotely thanks to the app, even if you are not at home! The app is simple and intuitive. It is also voice controlled thanks to the integration with Amazon Alexa or Google Home. This includes controls such as turning on/off or dimming/brightening your lights. For example, you can say: "Alexa, change the smart bulbs to blue". Group control functions allow you to control more than one smart bulb at the same time with commands. These lamps have passed strict quality controls, but if you have any questions or problems you can write to the technical service via the app.
