Descripción del producto

Special LED lamp for the decoration of swimming pools providing a pleasant cold light. It is designed to remain submersible under water without any inconvenience due to its IP68 protection rating and PC material. Made to replace old lamps of the same style PAR56 as 500667 and 500668 (references in shop). Its LED technology is SMD285 and its socket model G53. It has a luminous flux of 2200 lm, with 333 LEDs and a colour temperature of 6500k. With an input wattage of 22 to 24 W, and a voltage of 12 V . Its dimensions are 178 x 103 mm. It is recommended not to turn it on unless it is submerged (never in salt water). It is recommended for use in temperatures between -20? and 40?. It has CE & RoHs certificates and its useful life is 30000 hours. Compatible with remote control reference 500666.
