Descripción del producto

LED spotlight to decorate the surface of the pool. It can change tone and RGB colour thanks to the remote control reference 500666 (not included). It has SMD2835 LED technology, it is completely waterproof due to its IP68 protection rating and CE & RoHS certificates. It is not suitable for salt water and is recommended for use only under water at a depth of 700 mm, and in temperatures from -20° to 40°. It has a lifetime of 30,000 hours. It is white in colour and is made of PC and fibreglass and contains 333 LEDs. Its luminous flux is 900 lumens, with a luminous angle of 120°. Its dimensions are 260 mm x 40 mm and its cable length is two metres. Voltage of 12 V and 22 to 24 W standard input (the connection is made through a 220 Vac power transformer to 12 or 24 V). Suitable for lamps that use PAR53 as 500667 and 500668 (references in shop) includes instructions for use and assembly.
