Descripción del producto

Universal USB Travel Adapter. Professional, with a practical design, this adapter is valid for Europe, Australia, UK and USA. Go on holiday in safety in over 150 countries! Made for 2- and 3-pole power devices. Its input is compatible in Europe (Euro zone, Schuko and 2 euro) and the output connector is compatible with countries such as Australia, UK, USA... It has a maximum current of 6A 250V, it works with all electrical appliances. Its voltage is not convertible, it is not a transformer so it does not alter the voltage. Its two USB inputs have a maximum of 1000mA, 5V dc. It is black, square in shape and measures 60 long x 45 wide x 55 high, discreet, it includes a practical storage pouch as a gift. A classic for your trip! Its operation is very simple, just plug your electrical appliance into the female receiver, select with the tab on the side which plug you need and that's it. Switch easily between the different types of plugs and connect your electrical appliances without worrying about them working or getting damaged. Protect them with our universal adapter!
