## Descripción del producto

Biel series flexo lamp in white and beech. It is made of metal and wood which gives it that combination of white and brown tones. The type of socket used is E27 (bulb not included but available on our website for purchase). It projects direct light wherever it is pointed. The body is articulated and can be oriented up to 360 ° to illuminate in the direction you want. This flexo is ideal to install on the desk, brings a modern or rustic style depending on the rest of the decor of your spaces. You can also find the floor version to have the whole set. Dimensions (height x width x depth): 48 x 15 x 15 x 50 cm, net weight 1775 gr. Power supply 220-240 V. Install this flexo type lamp on any surface inside your home and give a different look to your spaces, it is ideal for reading, or performing activities that need a touch of light.
