Descripción del producto

Compact technical spotlight perfect for three-phase track mounting or for light rails. It is compatible with any type of GU10 bulb (not included) so you can change the colour temperature, wattage, and angle of aperture without having to change the entire spotlight. The joint adjusts to direct the light to the most desired spot, which makes it very practical. It measures 121 mm in length, 56.5 mm in width and 172 mm in height. This type of luminaire has become very popular as a main light or accent light, not only in businesses such as restaurants, shops or hotels, but also in homes. They are a flexible and practical option thanks to the freedom of configuration of the spotlights on the rails. It is white in colour and made of aluminium.
